

Security Assets Management System

SAMS Solution

For Your Business

Product Family :

- Panel Security Door (Padlock)
- * Passive Padlock (Work With Smartkey)
- * Keyless Padlock (Bluetooth)
- Concealed (Seamless Lock Bluetooth)
- Central Management System Platform
- SAMS Mobile Application

More Reliable
Secure
Easy to Use

MY Smartlock - Security Assets Management System is a centralized management system for SAMS solution. It's able to be SaaS or On-premise deployment according to customer requirement. It manages assets, users, authorization and business process. It's more of unified management for people, process and assets than just management for lock and keys.

SPECIFICATION

1. Programmed Panel Unlock Tools (Smartkey)

Dimension : 81x36,5x15,5mm
 Weight : 28g
 Material : PC/ABS plastic enclosure with matte anti - fingerprint treatment
 Communication interface : BLE 4.0 with buzzer and LED
 Encryption : AES 128 Bit
 Event Logs : 1000
 Battery : Rechargeable lithium battery
 One to Multiple : Yes
 Charging : DC5V+0,3
 Working Temperature : -35°C - 70°C
 Ingress Protection : IP54

4. Concealed (Seamless Lock Bluetooth)

Features : The system offers keyless Bluetooth unlocking, with the lock body hidden inside the door.
 External Power : DC 7V - 14V, DC 10-70V (optional)
 Battery : CR-123A disposable lithium battery
 Weight : 1500g
 Material : SUS304
 Dimension : 413 x 120 x 44mm
 Communication Interface : BLE 5.0
 Ingress Protection : IP54
 Working Temperature : 35°C - 70°C

2. Passive Padlock (work with Smartkey)

Dimension : 9,4x5x61x20mm more reliable
 Security : Idling design, Has guards against picking, bumping and hard to drill
 Locking System : Spring System - Pop up shackle
 Humidity : 10% - 90% None-condensation
 Body Material : SUS304, Silica gel
 Weight : 500g
 Ingress Protection : IP68, All Weather Lock
 Encryption : AES 128 Bit
 Event Logs : 1000
 Supported number of keys : No Limitation
 Working Temperature : -35°C - 70°C
 Acetic Acid Spray Test : >96h (Passed)

5. Central Management System

CMS Application : Web Base Application
 User Management : 3 Tier user privileges
 Region Management : 3 Tier hierarchy region
 Station Management : Yes, GPS Coordinates with interactive maps
 Preventive Maintenance Report : Yes
 Access Log Management : Yes
 Input Security : User and Password with Captcha
 Password : 8 pin with complexity requirement
 Import Data Station : Yes with template
 Import Data Padlock : Yes with template
 Approval via CMS : Yes
 Validity User : Yes
 Unplanned Work Type : Yes
 Query Data : Yes
 Export data Log : Yes
 License Management : Yes

3. Keyless Padlock (Bluetooth)

Features : Unlock through Bluetooth, work with SAMS Mobile Application + CMS, Waterproof and dustproof IP68 , External emergency power supply design
 Battery : DC 3V CR-2 disposable lithium battery
 Material : SUS304 , ABS /PC
 Material of shackle : Harden Alloy (HRC 40-50) with chrome plated
 Length of shackle : 44mm
 Diameter of shackle : 11mm
 Size : 119x65x30mm
 Weight : 610g
 Humidity : 5%-90%
 Working temperature : -35°C - 70°C
 Communication interface : BLE 5.0
 Acetic Acid Spray Test : >96h (Passed)
 Ingress protection : IP68, All Weather Lock
 Lock Type : Keyless Operation, Unlocking via Bluetooth Connection

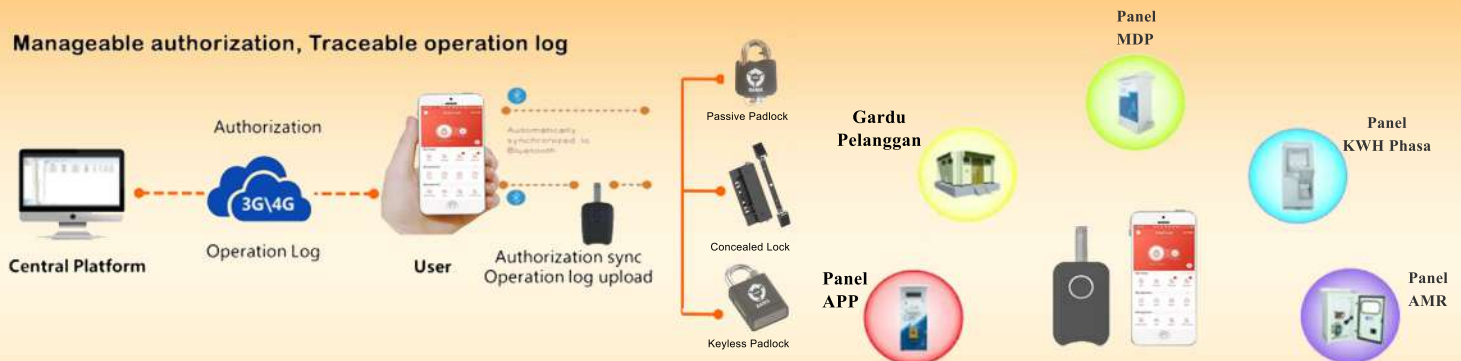

6. SAMS Mobile Application

Flexibility : Online, OTP (One Time Password), Assign Lock Authorization
 Access Request : Ticket with Approval
 Synchronization : Smartphone to Smart Key with Bluetooth connection
 Authorization : Smartphone with Internet Connection
 Maps Station : Yes, Connected with GPS Navigation
 GPS Tagging on Checkout : Yes
 Take Picture on Checkout : Yes
 Auto Update Version : Yes
 Compatible with minimal OS Android 4.3 and IOS 4.5

Manageable authorization, Traceable operation log
